VOL. VII | Salinas, Calif., Friday, April 8, 1938 | Number 12

$28,000 Government Loan

Is Granted to Jaysee For Athletic Fields and Lawns

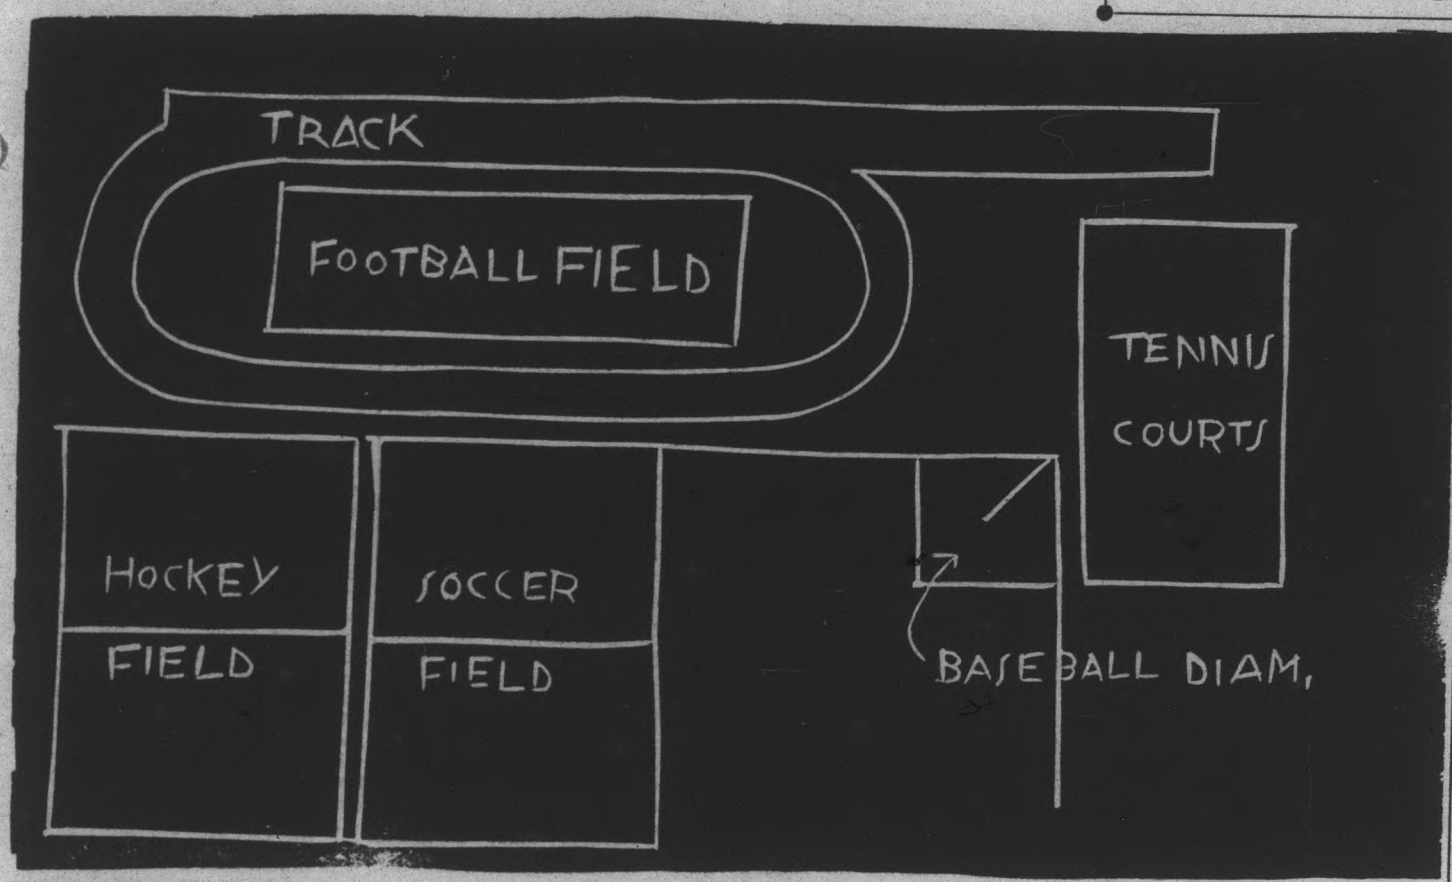

According to Word Received Here Tuesday

The long-awaited O. K. was received here this week when Mr. R. D. Case was notified of the government approval of a $22,000 W. P. A. grant for junior college improvements. The sum of $6.000 was recently voted by the taxpayers, making a total of $28,000 to be used on the project.

There is no longer any excuse for not having a lawn in front where the boys did their diggin-est. The agreement provides for landscaping the front with lawns, shrubs and trees, putting in a turf and sprinkling system for the athletic fields and for constructing a practice football field, a quarter-mile track, baseball diamond, girls' fields and six tennis courts. Some of this work was started by the boys last Friday when the track was surveyed and rolled. By the time school opens next fall, these fields should be complete.

According to Mr. J. F. Laughton, superintendent of buildings and grounds, construction will start immediately on these various projects. Lawns and athletic fields should greatly add to the improvement of the junior college facilities as well as appearance.

Athletic Field Plans

Jr. C. of C. Organized; "College Day" Observed

At a meeting held last Tuesday, the junior college representatives to the city's chamber of commerce, decided to organize themselves into a fraternity to be known as the Junior Chamber of Commerce.

Under the gavel of the temporary chairman, Bob Coover, a plan of action submitted by Doug Schwartz was read and discussed. This was accepted by the body with the exception that permanent officers should be elected instead of a temporary chairman each meeting, as provided for in the outline.

Election of officers followed and the results installed John Storm as president, Bob Coover as vice president. and Stafford Hughes as secretary.

The meeting closed with the reports of Don Coover, on his attendance of the recreation committee's last meeting, and Doug Schwartz, on his recent trip to San Francisco to attend the meeting of the California Safety Council.

For those interested, the purpose of this organization is to teach its members the workings of the local chamber and to give them an education in civic problems and their solutions second to none. In their meetings they will discuss local problems, hear talks by eminent businessmen of County, and give detailed reports on the workings of their respective committees The meetings are to be held weekly for this purpose.

Last Thursday was "college day" for the Salinas Chamber of Commerce.

At a luncheon meeting of the directors and committee chairmen, at the Hotel Cominos, all reports of committee activities were made by students of the Jaysee who have been assigned to the various groups of the civic organization to gain first hand experience in affairs of the city and the chamber of commerce.

Those who made reports at the meeting were John Storm, zoning and labor relations; Don Coover, recreation; Jack Kympton, health and better business; Bob Coover. water conservation; Bill Murray, merchants; Clarence Zingheim and Kenneth Ambrose, safety; Laurie Matiasevich, aviation; Doug Schwartz, publicity; Stafford Hughes, stock investigation; John Silliman, hospitality; Earl Anderson, membership; Melvin Stromberg, solicitations; Anthony Resetar and Norman Kerns, agriculture and conservation of natural resources; Gerrard Woelful, fire prevention; Richard Hambey, highways, and Harold Stigers, education.

One boy out of this group is to be selected for his record of work on these committees to be sent to the trade executives and commercial secretaries conference at Stanford University this summer; consequently, the competition is very keen among these boys.

FACULTY TO RETAIN JOBS

At a recent meeting of the Board of Trustees, all of our newer teachers were reappointed to their present positions.

Students will be glad to see again next year the following "youngsters": Coach Ed Adams, Mr. Claude Addison, commerce; Miss Freda Hutchinson, physical education and English; Miss Jean McKay, science; Mr. Herbert Langdon, engineering, and Miss Gertrude Lowe, music.

It was also decided that in the future Mr. Werner will have the title of "president" instead of "principal".

LIBRARY OPEN

Because so many students made the request, the library will be open for study during the noon hours starting immediately after Easter vacation. Mrs. Humphries will be in charge of the library on Monday, Wednesday and Thursday and Florence Hill will supervise on Tuesday and Friday.

PINAFORE IS BIG SUCCESS FOR JAYSEE

The high school auditorium was filled to capacity Thursday night, when many people from Salinas and neighboring communities came to see the students of J. C. put on "Pinafore."

"Pinafore" was definitely one of the most outstanding performances that the college has put on.

Much of the credit should go to Miss Lowe, the vocal director, who really gave much of her time and talent to the opera; Mr. McCann and his orchestra for their orchestrations; Mr. Amyx and his stage crew for their stage set; Miss Fraser for the dramatic part; Mrs. Baxter and Miss Epperson for makeup and costumes; Miss Hutchinson for the dancing and to the entire cast for their performance.

The costumes were rented from Goldstein and Company, San Francisco, and they blended very well with one another. All the costumes for the sisters, cousins and the aunts were in pastel shades and looked extremely well under the excellent lighting. The men's costumes were perfect in every detail.

Miss Lowe may be quoted as saying, "I was very pleased with the cast as a whole. They worked together very willingly and gave me excellent cooperation."

Youth Legislature To Be Held In S. F. From May 7 to 9

The first Youth Model legislature for the State of California will be held in San Francisco on May 7, 8 and 8. This legislature is being held to give young people experience in legislating bills. Every organization in California, which is composed of young people, is entitled to send delegates in the form of representatives to the "Youth Senate" and "Youth Assembly".

Although the Salinas Junior College is not officially sponsoring any delegates, some J. C. students expect to attend as delegates from church and social clubs.

All proposed bills must be sent to a central committee, which will eliminate duplicate and conflicting bills, and to give advice as to legal technicalities. It is the purpose of the whole legislature to give young people a greater active interest in the state legislature, since it will give the people who attend inside information on how our legislature really work and how it would work if the law were followed to the letter.

The state steering committee, which will determine the policy and type of bills to be favored at the youths' legislature, will meet in Fresno on April 9 and 10.

EDITORIAL

A GENTLE HINT

The name of a school paper means a lot to the staff members. It should mean a lot to the students. The school paper is one representative that goes out to all the Junior Colleges of the state. The reputation and tradition behind that paper does a lot toward furthering our scholastic standing.

At present, a name has been sweeping the school which certainly does not have any foundation or tradition of any sort behind it. Other schools will look upon a paper with this name as a rag, and that will be the only memory you will take with you of your paper.

Some students argue that the word "tiger" will eventually be the name of the team. Yes --- but what connection will "rag" have with the paper? The implication of the name itself is enough to wreck any moral that might be left in the paper.

A school paper is to give news --- the news of a serious student body, engaged in the serious pursuit of knowledge. By attaching a gag name to the paper, it kills the meaning right at the start. Such a name has been suggested for the school paper.

Would you, as a student, here for knowledge and honor bond to uphold the dignity of Alma Mater, put a name with the reputation of Tiger Rag to your school paper? Would you like to go from here to another school, and say you came from the Tiger Rag, and still expect to have your scholastic standing highly rated?

It is up to you, as members of the student body, if you want to keep that name from becoming your school paper's name.

MAIL BOX

Dear Editor:

Tiger Rag! Who wants the name, anyway? It hasn't any special significance, originality, or point. It's just a gag name. A name taken from a jazz sheet—a rag song with a peppy turn. What will it be—ten years from now. Why tack it on to the poor defenseless Battery? What's wrong with the Battery anyhow? A perfectly good name — so why change it? It's the spark behind the school. What if we do get into the A league sometime in the future? Is that any sign that the team will be called the Tigers? You might call the paper the Tiger—that has some meaning, but you say "Tiger Rag" and everyone immediately says "that filthy rag". We don't wan't our school paper to be a filthy rag. After all, this is supposed to be an intellectual college, not a roadhouse. Why give it such a start—let's give the school and the paper a break.

A BATTERY FAN.

This gets my full approval, but what do the rest of you have to say?—Editor.

Spring VACATION Is Here

It's a good thing vacation is next week. Everyone's gotten to the point where if they have to go on with this deadly grind of getting up, going to school, studying, coming home, study, and going to be, another minute, we'd either scream or commit murder. Don't know but what we'd prefer murder. But forget all that! It's spring! It's Easter! It's VACATION! You can rest, read, eat, and sleep without thought of books and bells, of classes and studies. The sun's nice outside—why stay in? Want to go swimming? To a show? A picnic? Go ahead. There's no school. For one blessed whole week you can find life worth living again. Vacation's swell!

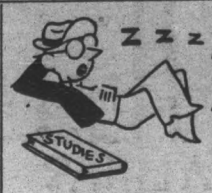

(P. S.—For those poor boops who are behind—it's a chance to catch up, and start life anew. You'll feel better if you do).

SURVEYORS WILL TAKE CIVIL EXAM IN SAN FRANCISCO

Members of the surveying class will go to San Francisco on April 23 in order to take a junior engineering and civil service examination. If the boys pass this examination, they will be eligible for government surveying jobs at $120 per month.

Boys planning to take the test are Harold Ball, Alfred Calpito, Don Coover, Jr., Leroy Jewett, George Kelly, Luther White, Harold Peters, Eugene Philbrick, Victor Porter, Harold Stigers, Frank Trotter.

At present the surveying crews are laying out roadbeds, setting slope stakes and computing cuts and fills for a theoretic road on Cattlemen's Lane near the ag farm. This problem follows the completion of a topographic map of the ag farm, including roads, boundaries, property lines, fences and contours.

So This Is College!

Hi, Studes!

Well, now that the blisters I got turning over tons of mother earth have left my pale, pink palms in a semblance of the condition they were in when I started work last Friday, I once more turn to my type-slapper to shoot this strip out to take its place among the other literary montrosities of the times. However, in spite of the big water wafers I earned out on the front lawn-to-be last week, I'm with anyone who wants to declare "work day" the outstanding event we've had this year. Agreed?

I'd also like to put the personal stamp of approval on the orchestra, who, with only a few days' practice, swung out on the beat so well that even the esteemed Eris shook off his professorial robes and, like the Basque jitterbug that he is, kicked the gong around with the best—or worst—of us!

The Salinas Golf and Country Club has been getting a lot of junior college patronage lately, if the number of divots we've seen on the course recently is any indication. Homer Widener tells us that he smacks the sphere around nine holes in the middle forties. That makes us wonder if Paul Lauritson does. The day we saw him on the eighth tee, he was swinging madly at a nonchalant ball that would yawn in sheer boredom, ease itself gently from the tee, and casually roll a few inches each time a miniature typhoon from Paul's swooping stick would sweep by.

Except for a few minor incidents perpetuated on the innocent Salinas Chamber of Commerce by H. Stigers, the speeches yesterday went off very well at the luncheon held at the Cominos Hotel. It was noted, however, that the members of the Junior Chamber, who gave their speeches during the early part of the meal, had much better appetites than those who came later. Pecular what suspense can do to one's appetite, isn't it?

Well, that's about all for the week — and quite a week it's been with mid-terms and such warping our personalities. There oughta be a law!

Wish I could dig up a darn good scandal!

PHOTOGRAPHY CLUB TO HOLD EXHIBIT IN J. C.

The J. C. Photography Club will have its first exhibit from April 20 to 22. The prints will be hung along the main hall for the three-day period. There will be only one official prize, which will be given for the print judged best from the standpoint of interest, composition, and technical excellence. The judges will be Mr. Leon Amyx, Minor Bolton and Ed Maxwell.

Rules for the exhibit are:

1. Anyone in J. C. may submit prints.
2. All prints must be the work of the exhibitor.
3. All entrants most pay five cents for each print they exhibit (This money will pay for the prize).
4. All prints must be on standard mounts as specified by the Photography Club.

GERMAN BOOKS GIVEN TO J. C. BY E. BAUGER

Recently Mr. Ernest W. Bauger presented the Salinas Junior College with 13 very valuable German books. Mr. Bauger is a teacher of social science at the Gonzales Union High School.

The books were a part of Mr. Bauger's private library at the time he was a student of German. They are: Six volumes of the works of Goethe, four volumes of Shiller (Schillers Werke), and three volumes of Lessing's works. Since German is not taught at Gonzales, Mr. Bauger gave the books to the Jaysee, where they can be used.

Following the suggestion of Miss Hall, German instructor, Mr. Amyx is planning a plaque to be placed in the front of all books presented to our library. The plaque will have the name of the donor inscribed on it as a gesture of appreciation.

The new German books will be placed in the main library. They are very beautifully and substantially bound. The printing (German script) is very clear and the books all have typical German pictures.

The junior college, especially the German students, want to thank Mr. Bauger for his present, which will be the foundation of the German library in the junior college.

Faculty Enjoys Delightful Tea

Last Tuesday the faculty tea, given under the auspices of the Upsilon Gamma Chi and the high school girls, was held in the practice home during the afternoon. Vivian Stephenson, president of the U. G. C., Armistine Salamina, committee chairman, and Flora Panziera, acted as hostesses, with Mrs. Baxter and Miss Epperson supervising the affair. Members of the cooking class made the delightful refreshments which consisted of cookies, sandwiches, and tea. The dining room table was attractively set with a tan lace cloth, while a bowl of flowers was flanked by candlesticks.

A very enjoyable time was had by all who attended the tea, and it is hoped that the annual faculty tea will become a tradition in the future.

Panthers Lose Meet to Cubs

Unable to win more than three of the 14 track and field events that were scheduled, the Panther track team was defeated by a mediocre Santa Rosa outfit, 77:45.

Standlee Greening was the only Panther able to win first in any event, emerging victorious in the 160-yard dash and the 440-yard dash. The only other first place was won by the Salinas relay team of Kozeni, Stewart, Eaton, and Greening, running in the order named. The time was 1:35:6.

The usually strong Panther weightmen had an off day and were unable to take better than seconds and thirds. Burton Stokes showed very good form in the javelin throw in his first meet and took a second place behind Daniels of Santa Rose. The winning distance in the spear tossing event was 148 feet, two inches. In the discus throw Vorheis was nosed out by Bunyan with a throw of 123 feet. Kympton took a third place with Cummings unable to place. Carlson took a third place in the shotput event, which was won by Kinney of Santa Rosa, with a put of 37 feet, 11 inches.

Gordon Bain placed third in the broadjump and second in the pole vault. The winning distance in the broadjump was 20 feet, 5 inches, made by Fellers, and the winning height in the pole vault was 12 feet, made by Knowles. Winkler, of Santa Rosa, won the high jump with our own Hank Eaton taking a third.

Kozeni and Ogawa placed second and third respectively in the 100-yard dash, run in 10:5 by Kinney.

In a slow mile run, Badger, of Santa Rosa edged out Zingheim of Salinas. Time in the event was 5:11:2.

In the 120-yard high hurdles, Hank Eaton and Bill Paine finished second and third, respectively. Time, 16:8. Eaton also took a second in the 160-yard low hurdle event, which took the place of the usual 220-yard lows.

The 160-yard dash was won by Standlee Greening of the Panther squad in 16:2 seconds. Kats Kozine finished in third place behind Kinney of Santa Rosa.

Santa Rosa placed first and second in the half mile run with blonde Bill Giles finishing in third place. The time was 2:10.

Determined to avenge past defeats, the Panthers have spent this week in hard practice in order to make a better showing at Menlo tomorrow.

Salinas Panther Netmen Win Second Conference Match

Dropping matches to the Stanford Frosh team and thoroughly trouncing the Santa Rosa J. C. netsters, the Panther varsity tennis team returned from a two-day trip to Palo Alto and Santa Rosa.

The Panthers played the frosh in practice matches and lost all contests except one, in which Stan Noyes, the Alameda wizard of the clay courts, defeated Owens, the Stanford frosh number one player. The match, which lasted three hours, was a hard fought one with Noyes finally winning, 2-6, 8-6, 6-2.

In the other single matches, Lowe (S) defeated Sorensen (Sal.); Ballard (S) defeated Gee (Sal.); Terry (S) defeated Martin (Sal.); Lundy (S) defeated Endo (Sal.); and Worthington (S) defeated Yee (Sal.).

Stanford won all three of the double matches with Lundy and Ballard defeating Gee and Noyes; Lowe and Owens defeating Martin and Sorensen; and Terry and Worthington defeating Yee and Endo.

The total gave eight matches to the Stanford frosh, and one to Salinas Jaysee.

Journeying up to Santa Rosa on the following day, Saturday, the varsity decisively defeated the Santa Rosa J. C. netmen five matches to one.

The single matches, none of which were very close, found McLean (S) defeating Jenkins (SR), 6-1, 6-2; Stokes (S) defeating Berner (SR), 6-2, 6-1; Gee (S) defeating Helberg (SR) 6-0, 6-1; and Yee (S) defeating Stevens (SR), 6-1, 6-4.

In the double matches McLean and Gee, of Salinas, defeated Jenkins and Stevens of Santa Rosa, 8-6, 6-1, and Hill and Berner, of Santa Rosa, defeated the Panther combination of Endo and Yee, 9-7, 6-3.

Carrying on the Salinas Junior College tradition of good tennis teams, this year's tennis squad appears to be the bright spot of the spring athletic season. With a powerful array of ambitious racket swingers under the charge of Stan Noyes, the Panther varsity netsters have won their two conference matches with Marin J. C. and Santa Rosa J. C., and all things point to a conference championship in tennis being brought back this season to the somewhat empty Panther den on Homestead Avenue.

PANTHER *of the week . . .*

Truly the Panther of the Week is Standlee Greening, the outstanding Maroon and Gold track man, who was the only Salinas man to take firsts in the dual meet with Santa Rosa last week. Stan kept the Panthers from a shutout in the winning column by coming out first in the 160 and 440 yard dashes.

He is tall, not dark, but quite handsome with curly brown hair and a very pleasant smile. In case some of you are interested, he is one year younger than a person who will be 18 this year (figure it out for yourself).

Stan was on the Salinas High School track team last year and later attended the University of Southern California, transferring here from that institution last semester.

A firm believer in training, he may be seen in the late afternoons running around the oval at the high school or in back of the Jaysee. With a definite schedule for each day of the week, Standlee feels that the most benefit can be derived from practice and work-outs.

To the fine record he has made in track meets to date, we hope he will add many other victories this current season. Good luck, Stan, and more power to you!

PANTHERS LOSE DOUBLEHEADER TO MARIN J. C.

Playing their second league double-header last Saturday, the Jaysee Panthers lost to Marin Junior College 14-0 in the first game and 16-8 in the second tilt. The panthers were ragged in fielding, making 20 errors in 16 innings.

Bob Coover, tossing for the Panthers in the first game, led in hitting with a single and two doubles in four trips to the plate. Don Coover and Dick Johnson had one hit each.

In the second game, the Panthers got eight hits and one run for each. They didn't do so well until the first of the sixth inning, when Andrus and Head got a walk off the Marin tosser. These two walks began a rally in which the Panthers scored six runs.

Marin scored the only homer, but the Panthers chalked up the only double play.

Box Score, First Game

Panthers	AB	H	R	E
Silliman 2b	4	0	0	1
B. Coover, p	4	0	3	0
D. Coover, c	4	0	1	0

Totals	31	8	8	11

Women—No Cosmetics

"Pure soap and water is the best aid to beauty," said the negative in the debate this week on the subject, Resolved: Women should wear cosmetics. The negative speakers, John Mitchell and Harry Knowles, won their point by stressing the harm done by the use of cosmetics.

Laurie Pilling was the direct evidence offered by the affirmative speakers, Burleigh Martin and Jasper Folletta. However, her very evident beauty, which she says is due in part to the use of cosmetics, did not sway the three men judges.

This debate, which was one of the most interesting so far in the series, attracted 103 people.

Tennis Team To Play USF

This afternoon at 1:30 o'clock, the Salinas J. C. Panther netmen will meet the strong University of San Francisco varsity netsters on the wind-swept local high school courts.

Undefeated in their two conference matches, the Homestead Avenue boys are certain to give their usual brilliant performances. In the two conference matches played, the locals have defeated Marin six matches to nothing and Santa Rosa five matches to one.

On Sunday, April 10, the varsity will journey to Alameda to meet an all-star tennis team to be selected from the leading east bay tennis organizations by Bill Catton, Alameda tennis professional. The Panthers will play against such outstanding netmen as Les Hefner, former holder of the California Junior College singles championship and formerly of the Sacramento J. C.; Jack Morrison, former California frosh number-one player; Cotton Peters and Rollie Reed, leading east bay inter-club doubles team, and many other high ranking tennis men from Oakland, Alameda and Berkeley.

The Panthers will rely on Stan Noyes, the ace J. C. player, John Storm, Tom Gee, Jack Sorensen, Burleigh Martin, Tad Oda, Bill McLean, Diamond Yee and Kats Endo.

The matches will be played on the Washington Park courts in Alameda overlooking San Francisco Bay (sounds like a Rio Del Mar ad).

THE CLOTHES CLOSET

Since we have vacation all next week and many of us will just be loafing, why not figure out some loafing clothes.

If you are planning to just stay at home and do your loafing, why I suggest for the boys to just slip into the dirtiest pair of cords that they own; and, as you know, any boy is in heaven when he has on his "old stand-bys". For the co-ed, I would suggest either a pair of slacks, house coat, or an old dress.

The girl that is planning to loaf on the beach should have several pairs of shorts, any color that looks good on her, at least one good bathing suit and cap, and a pair of slacks. For the girl that can afford it, I should suggest getting a pair of cork beach shoes. Some of them are rather expensive. It seems that the higher off the ground you are, the higher the price is, so regulate the height by your purse. If you have a delicate complexion, you should by all means have a large sun hat. It will not only help keep your complexion nice, but it will also keep your hair from drying out and becoming dull-looking.

If you are planning on going into the mountains to do your loafing, the first thing to think about would be a good sensible pair of hiking shoes or boots. Overalls or jeans would be more appropriate than slacks, because they are more durable. You would need some bright colored shirts and a heavy sweater or jacket, because, no matter how hot the day, it is always cool in you are fortunate enough to be the early morning and nights. If near horses and a swimming pool don't forget to bring your bathing suit and riding boots.

Here's hoping you all have a chance to use one of the above suggestions next week.

J. C. Track Team and Baseball Nine Are to Travel Northward

Tomorrow the Panther track and baseball teams will travel northward, the track men to Menlo Park and the horsehiders to San Francisco.

The track team will enter into competition with Santa Rosa, Marin, and Menlo J. C. on the Menlo oval.

The baseball nine will meet the San Francisco J. C. in a double-header starting at 12:30 o'clock. Here's wishing them luck!

Nuff Said

When Shakespeare said "What fools these mortals be", he really said something. Have you ever stopped to think just what kind of a world this would be if there were no "fools"? We would be a perfect race, and that would be bad. We would have no chance for advancement, and advancement is one of the essential things that this world needs to keep going, so let's all "advance" ourselves on perfect Easter vacation . . . Now let's see just what "advancing" is going to take place all next week . . . Rosie Panzierra is going to stay at home and catch up on back sleep. Rosie said that if anything more exciting showed up she would probably do it . . . Vivian Stephenson is going first to Visalia and then to Santa Cruz to the Rainbow grand assembly. Vivian would like to spend a few days in her folks' cabin at Paradise Park but then, after all, she has only one week . . . Eleanor Beaumont is going to stay home and sleep and sew, and sleep and sew, and then when she gets tired of doing that she will just sleep . . . George Linteo is going to his home in Oakland and really raise whoopee, as it will be the first time this year that he has been home . . . You had better take it easy, George; remember, you have to be in the Prairie Doll when you get back . . . Ruth Igleheart is going to catch up on back sleep the first part of the week, and then go to Santa Cruz to grand assembly of Rainbow the latter part of the week. Ruth is expecting to have a grand time and we believe that she accomplishes anything she sets her mind to . . . Laurie Matiasevich is just planning on finding a job or to take life easy so as to be just brimming over with ambition . . . Winnie Kincannon is really going to have a good rest at Pine Canyon this week. Oh, give me a home where the buffalo roam . . . Lucille Curtis is going to catch up on some back school work and try to entertain her guests from Stockton. Here's hoping you and your gues have a fine time . . . Edith Diedrickson is going to play with the fish as she is going to Santa Cruz swimming. Remember, Edith, too much sun will burn, and a bad burn is no fun . . . Ruth Connel is just going to stay at home and loaf as usual, she said; but then, Ruth, we don't believe you when you say "loaf", because we think you will be kept quite busy this week . . . Gordon Stewart is concentrating on back work all this week; Gordon is also interested in gaining a little lost sleep . . . Betty Tholcke has made up her mind to stay at home the first part of the week and just take life easy and then the latter part to really liven up and go to grand assembly . . . Jane Vincent is also going to grand assembly but first of all she is going to San Jose. Jane says she is expecting to get in a little rest but just where she doesn' know . . . Eugene Philbrick is going to work, work, and work—and play golf. Eugene, which are you going to do mostly, work or play golf? I'll get on the golf . . . Joe Carter is going to work, or at least try to. Here's wishing you luck, Joe . . . Well, it seems that all of us will either be going to grand assembly, the beach, work, or else we just won't bother about getting up . . . No matter what you do, jus remember to have a fine ime, and don't forget there is only one week of vacation . . .

Nuff said!

GIRLS PLAN FOR MODERN DANCE PROGRAM IN MAY

May 7 will be the big day for the girls who are interested in modern dancing. The program, to be given in the Washington school auditorium on that evening, has been worked up and will be directed by Miss Hutchinson. Some of the dances are merely progressions of the type of work done in class. Others will interpret some act or story.

Special costumes are now being made in the J. C. sewing classes. This is the first attempt on the part of the junior college to put on this type of program. This one promises to be very entertaining, and the admission charge will be only 15 for students, 20 cents for adults, and 10 cent for grammar school children.

GUESS WHO?

"He has large brown eyes, fringed by long black eye lashes. His glasses make his eyes seem even larger than they are. When he smiles, his dimples are even more attractive than his gleaming white teeth. His sure step, straight back and well carried shoulders make him an idol of the girls and command the respect of the men. He is topped by black, slightly wavy, hair, which is well trained and very orderly . . . "

Excerpt from an English essay on description. Can you guess who the gentleman in question is?

An Inspector, examining a class in religious knowledge, asked the following question of a girl, intending it for a catch:

"What was the difference between Noah's Ark and Joan of Arc?"

He was not a little surprised when the child answering said: "Noah's Ark was made of wood and Joan of Arc was maid of Orleans."

Key Hole

Just lots and lots of you students in the halls kick because there are just the same names in the gossip column every week, but how many of you have ever tried to write a column — with different people in it every week? For the most part, the poor columnist has to depend on the people he knows and what slight material some outsider does turn in. For some strange reason, he can't get around and know everyone, so must do the best he can. If you really want to help, you could all turn in one amusing or interesting bit of gossip about someone else, and we would see that it got printed.

That anniversary day program certainly did go off with a big bang—and a spilling of macaroni. Also a big splash of water—just ask Anthony Resetar. Kay Vosti was having a fit — someone swiped her tail when she wasn't looking. Saw Luck holding it rather firmly a little later when they were on the dance floor; it seems as though it got in the way. Here comes that hula girl again. Emma really should have traded skirts with Harriet Holman when she did that hula dance. First time we knew that the W. C. T. U. had so much life left in it. But from the way the sign shifted around from Rose to George Jensen and back again, it was very much alive. Wonder how many girls got in on the candy bars that Burr Scott's team won?

Cokes to Mr. Sauble for the use of his car, and splendid cooperation with the committee; to Mr. Werner for his open purse and general "putting it over"; to Jack Kympton and Ernestine Winters for their hard work in making it a success; and to Mrs. Humphries for being such a sport.

The girls that cut the cake for the supper Friday night were so sick of cake by the time they got through, that none of hem could look one in the face.

Why, oh why, do busses HAVE to leave at 9 o'clock? Everything was going swell, the orchestra was perfect, when blooey —"This is the last dance"—and it's only 9 o'clock. NUTS! A number turned up at the high school penny carnival, but it was jammed worse than the Battery room was during the supper hour.

Now that the opera is over, maybe life will resume its normal course, but the cast and all concerned with it certainly deserve a gallon of cokes for the hard work they put into it, and the splendid job they did.

Oscar, or is it Oswald? Anyway, that skeleton is on the rampage again. Mr. Adam's hygiene class is rather interested in him right now.

The verse-choir finally got some engagements. The kids got so tired of inflicting "Casey at the Bat" and "Hells Bells" on themselves, that they betook themselves to the Hotel Cominos the other day and entertained their Coalinga guests. Today they are at the Civic Club house, for a tea of some sort.

Prom dates, and the U. G. C. picnic date are approaching rapidly, but so far, nothing seems to have been done or any dates set for either one. May's nearly here.

That "Tiger Rag" business seems to have worn itself out already. Say "Tiger Rag" to somebody. They usually curl up their noses. More power to 'em.

The faculty tea is another thing of the past. The practice home certainly took a beating, Tuesday. But the home management girls took one a week beforehand giving the house it's spring cleaning.

Spring cleaning—who's going to clean out the girls' club house—and when? It certainly needs it, and now that it's here, the girls ought to do something about it.

Someone asked Joyce if Don was out surveying. "He has on his white shoes," says she—and that was sufficient answer.

This time, this column was an attempt to get back to the old policy of no gossip. The editor suddenly remembered her resolution at the beginning of the year. But we can't resist. W've heard various rumors as to the owner of the ring Marion Sherer was wearing last week, but the best bet seems to be a Battery staff member.

Hope you all have a nice vacation!

Co-eds Will Attend Grand Assembly

This year the Rainbow Grand Assembly will be held in Santa Cruz, April 15 to 17.

This will make the seventh grand assembly and the second time it has been held at Santa Cruz. The official headquarters will be at the Casa Del Rey Hotel.

Rainbow Girls from all over California will meet at that time to see the grand officers perform. Also attending these assemblies will be grand officers from other states.

Most of the sessions are open only to Rainbow Girls, members of the Eastern Star, and Masons, but Saturday night, at the Coconut Grove, they will have an open installation of the newly-appointed grand officers. After the installation they will hold a grand ball with everyone invited to attend.

The open installation will be held at the Coconut Grove with everyone invited.

Many of the J. C. girls are planning on spending a very enjoyable three-day vacation at the convention.

Might we add that the boys wil be especially welcome at the grand ball. We will expect to see every J. C. boy, DeMolay or not, to be doing his part to help make the grand ball a success.
